**Subject: *Letter of Intent for Participation in the JOINABLE Project (IPA-ADRION00294)***

Dear Sir/Madame,

On behalf of the Municipality of Tivat, I am pleased to express our intention to participate in the JOINABLE project – "Joint Approach to Blue Circular Economy for the Adriatic and Ionian Region", under the Interreg VI-B IPA ADRION Programme.

We recognize the importance of supporting circular economy development in the Adriatic-Ionian region, particularly in addressing plastic waste pollution in aquatic environments. As a local authority, we are committed to sustainable environmental practices and acknowledge that the JOINABLE project provides a unique opportunity to:

- Enhance plastic waste collection and recycling initiatives in our coastal and water-based environments.
- Engage citizens and volunteers in a structured network for plastic waste removal and sorting.
- Collaborate with SMEs to transform plastic waste into valuable new products.
- Contribute to the development of a transnational strategy for a blue circular economy.
- Strengthen local policies and regulatory frameworks to support blue circular economy, specific circular economy of plastic litter collected in aquatic areas.

The Municipality of Tivat is fully prepared to contribute to the project by:

- Participating in pilot actions for plastic waste collection and monitoring.
- Engaging local stakeholders, including businesses, NGOs, and community groups, in circular economy initiatives.
- Supporting awareness campaigns on circularity of plastic litter
- Providing policy input to align project outcomes with national and regional regulations.

We look forward to working in close cooperation with the University of Montenegro – Faculty of Maritime Studies Kotor and the other project partners from across the Adriatic-Ionian region. Our engagement in the JOINABLE project reflects our strong commitment to environmental sustainability, innovation, and transnational cooperation.

Sincerely,

Secretariat for european integration  
and relations with strategic investors

Secretary, Milica Manojlović
